LOCKDOWN IN FLOOR SAFES

ALL CMI SAFES COME WITH A COMPLETE FIVE YEAR WARRANTY, EXCLUDING FREIGHT AND TRAVELLING WITH A 24 MONTH WARRANTY ON LOCKS.

- **RECOMMENDED
INSTALLATION PROCEDURE**

The safes may be installed in either concrete or timber floors. The opening in the floor should be at least 500mm square by 500mm deep.

The safe should be secured with a strong mix concrete 1 x sand, 1 x stone, 1 x cement. Steel reinforcing material can also be used to help bond the concrete and provide better security.

It is recommended that the mix be poured so that a concrete cover of at least 100mm (4") exists around each side of the safe and brought level with top.

Floor safes are not waterproof. In damp situations the concrete should contain a waterproofing agent such as "Silasec" or "Yurite" (available from hardware stores).

Whilst the concrete is setting, the door should be removed.

Designed by CMI Safe Co and manufactured in China to CMI specifications, this product is supplied with the same quality assurance and 5 year warranty on construction synonymous with CMI locally manufactured products. Digital and mechanical combination UL rated lock or Australian made ROSS keylocks with a 2 year warranty are fitted in CMI Sydney factory during a rigid pre delivery inspection. Fully supported by the CMI Safe Co commitment to customer service, available nationally.

- **INTERCHANGEABLE DOOR
REMOVES TO FACILITATE
SERVICE AND INSTALLATION**
- **FLUSH FITTING DUST COVER TO
AID CONCEALMENT AND FIRE
PROTECTION**

**SUGGESTED INSURABLE CASH RATING FOR LOCKDOWN IN FLOOR SAFE
